Website: niccolomaffioli.dev

Junior Full Stack Developer with a strong focus on Front-End development, specializing in React (TSX), Tailwind, and Vite. Through my years of study, I have developed technical precision and a strong visual sensibility, crafting polished UI/UX interfaces using tools such as Figma. I am a collaborative team player who also excels when working independently. I am looking for a dynamic environment where I can grow as a developer and contribute to creating modern, intuitive digital experiences. I have a background in competitive artistic gymnastics and tennis, and more recently, I've taken up acrobatics and boxing. I am passionate about collecting (especially manga), TV series, films, and gaming.

Work experience

08/03/2026 - 26/05/2026

Curricular Internship - Refactormi srl
Milan

Experience within a digital development team, involving frontend and backend development, database management, and UI/UX design. Participation in the analysis, design, and development of features for a web application, including the creation of prototypes and technical solutions later shared with the team.

01/10/2025 - 15/10/2025

Curricular Internship - Incoming Partners
Milan

Developed a web-based micro-application for managing corporate attendance via QR codes, built using Google Apps Script, Google Sheets, and Google Forms. The system generates unique QR codes for each employee and automatically updates the online attendance registry with real-time daily data upon scanning.

18/08/2025 - 30/09/2025

Curricular Internship - ExLibris.link srl (Incoming Partners)
Milan

Developed a stateless CMS using React (TSX) and Strapi to replace a legacy PPTX-based system. This solution enables the creation and management of web-based digital presentations through custom dynamic blocks.

2022 - 2023

Collaboration - Exlibris.link srl
Milan

Designed covers for digital books (ePub3 format) and developed a dedicated intranet system for digital content archiving. Additionally, built a web-based application to manage and showcase digital portfolios for external collaborators.

2022 - 2023

Collaboration - Ste Industries srl
Milan

Designed logo prototypes for new product lines and managed mock-ups for marketing brochures.
